Mr. Pablo Casals
San Juan
Puerto Rico

Dear Mr. Casals,

Mr. Hermann and I have a home in Nevada City, Nevada County, California, where I summer each year, close to the area of the site of Alpha where Emma Nevada, the singer, was born.

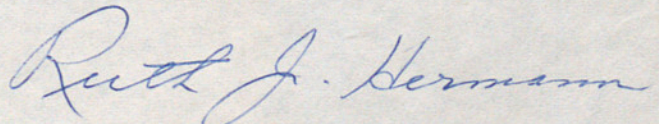

I have become very interested in her life and her outstanding career in Europe including her tours to America. Consequently, I have done a great amount of research regarding her and have gathered considerable material. I recently read "Conversations With Casals", by J. MA. Corredor, and especially enjoyed your comments regarding your first journey to America, your tour with this great singer.

I have a program that I want to give you. It is dated, "Wednesday, March 12th", (1902) "Farragut Theatre", (Vallejo, California) when you appeared with "Mme. Emma Nevada", as well as Leon Moreau and Daniel Maguarre. If I had been sure that this letter would reach you with this incomplete address, I would have included the program in this letter.

Please let me know when you receive this message, and I will send the program on to you immediately.

I admire you, the message you are giving to the world through your great Oratorio, that of peace and religious unity among peoples through music.

Yours humbly,

Mrs. Victor A. Hermann
